

Bell 407 (Private)

Aircraft: Bell 407

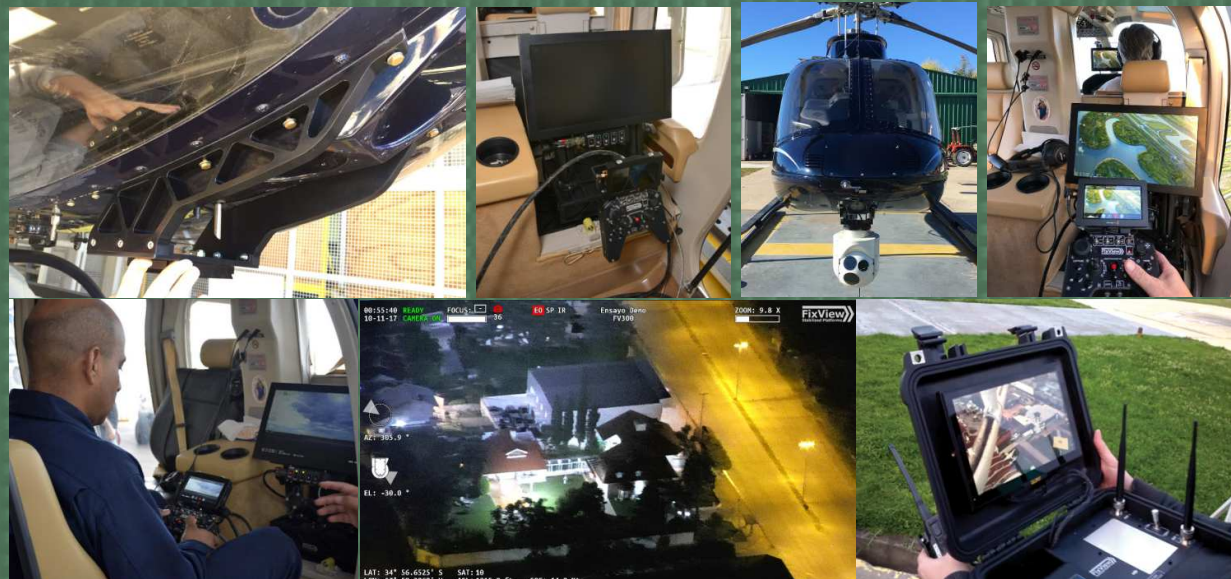

System: FV-300 (STC 1805.23A approved by ANAC - Argentina)

Mount: Nose Mount FV-M-B407 made by Fixview SRL (STC 1801.02 Approved by ANAC - Argentina)

Application: Private security. Local police assistance & support.

Notes: Gimbal linked to Trakka searchlight.

Bell 407 (Private)

Aircraft: Bell 407

System: FV-300 (STC 1805.23A approved by ANAC – Argentina)

Mount: Nose Mount FV-M-B407 made by Fixview SRL (STC 1801.02 Approved by ANAC - Argentina)

Application: Private security. Local police assistance & support.

Notes: Gimbal linked to Trakka searchlight

Bell 206 (Private)

Aircraft: Bell 206

System: FV-300 (STC 1807.27(A) approved by ANAC - Argentina)

Mount: Meeker Nose mount / Nose Mount FV-M-B206 made by Fixview SRL (STC 1806.26 approved by ANAC - Argentina)

Application: Private security. Local police assistance & support.

Notes: Gimbal linked to Trakka searchlight.

Bell 206L (Private)

Aircraft: Bell 206

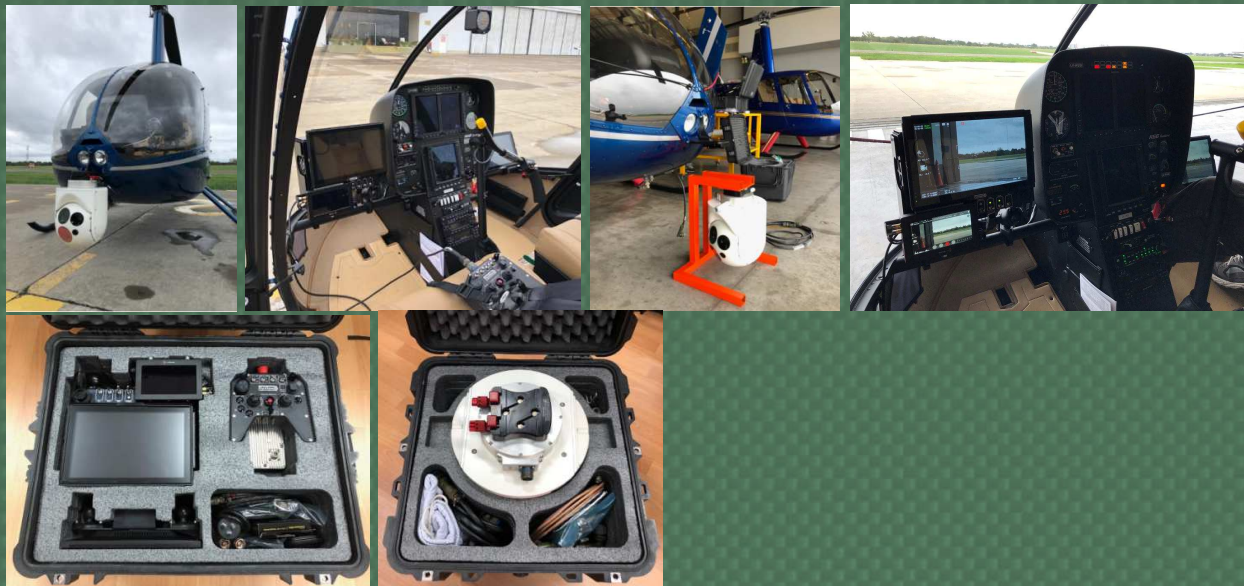

System: FV-300 (STC 1807.27(A) approved by ANAC - Argentina)

Mount: Nose Mount Meeker Bell 206 mount.

Application: Paraguay Republic Air Force & National Police Force demonstration.

Notes: Gimbal linked to Trakka searchlight.

Robinson R66 (Private)

Aircraft: Robison R66

System: FV-300 (+ Laser Pointer module)

STC: In process(Est. approval July2018)

Mount: Meeker R44/66 Nose Mount

Application: Private security. Local Police assistance & support.

Notes: Gimbal linked to FV-SLT-01 Searchlight.

Bell UH1H (Army)

Aircraft: Bell UH1H

System: FV-300 (+ Tx/Rx)

Mount: Meeker Side Mount UH-1H Mount

Application: Day/night operations & aerial support.

Notes: System demonstration for Argentinean Army

EC135 (Police)

Aircraft: EC135

System: FV-300 (+ Tx/Rx)

Mount: Side mount.

Application: Day/night operations & aerial support.

Notes: G20 Argentina 2018 surveillance operations.

BO 105 (Police)

Aircraft: Airbus BO 105

System + Mount: FV5AX-HD250 (+ Tx/Rx) (STC 1611.32(A) approved by ANAC)

Application: Law enforcement / aerial support.

Notes: Two systems sold to Santa Fe Police Force

Bell 206 / UH1H (Army)

Aircraft: Bell 206 / UH1H

System: FV5AX-HD250

Mount: Meeker Nose Bell 206 mount / Meeker Side UH-1H mount.

Application: Operational system demonstration for Ejército Argentino (Argentina Army).

Robinson R44 *(Private)*

Aircraft: Robinson R44

System: FV5AX-HD250

Mount: Meeker R44/66 nose mount.

Application: Power line survey & Aerial filming.

Jabiru J430 *(Private)*

Aircraft: Jabiru J430

System: FV5AX-HD250

Mount: Experimental mount made by Fixview SRL (Custom made)

Application: Experimental.

Notes: Future certification for surveillance missions.

Bell 206/407/UH1H - Robinson R44/R66 – AS350

For a few years Fixview has been working in filming industry with aerial filming services using the FV5AX-HD250 System developed by the company.

This activity gave to the company more than 750 flying hours of experience on gyro-stabilized systems on many helicopters and some airplanes using this system and the precursor system FV4AX-HD.

Robinson R44– Aero Boero

First prototypes flying test on Robinson R44 and Aero Boero. Both prototypes were sold to INVAP SE.

Bell 206 - Robinson R22/44/R66 – AS350

First system made by the company for aerial filming purposes. FV4AX was used many helicopters in Argentina, Perú, Paraguay and Mexico filming mostly motor sports and bicycle races.
